DREER QUALITY BULBS

for Florists

All Dreer bulbs have been carefully selected for size and vigor. They are bound to give entire satisfaction if grown properly. Naturally the price for these large bulbs is somewhat higher than that of smaller sizes, yet the difference is insignificant if one considers the chance taken by the grower who tries to get by with inferior stock.

Sternbergia—Autumn Daffodil

Lutea. A very pretty, dwarf autumn-flowering bulb with blooms not unlike a glorified giant yellow Crocus which makes one wonder just why they have the popular name of Autumn Daffodil. May we suggest that you send us your order for bulbs as soon as possible. Many bulbs do best if planted during the early part of the autumn and even those that are planted late should be secured as promptly as possible in order to avoid the possibility of any particular varieties wanted being sold out, particularly this year, as the supply of many varieties is very short.
